Terms of reference for the Review of the Bachelor of Arts Program

In line with the requirements of the Academic Program Review Procedure [3.30.05], the purpose of the review of the Bachelor of Arts is to undertake an evidence-based evaluation of the program with an emphasis on its current effectiveness and recommendations on the future development of the program.

The review will consider:

- Strategic alignment of the program with university and faculty priorities as well as future plans and directions for the program
- The program’s history and current structure, including distinctiveness, relevance and effectiveness of its plans, Honours programs and dual degree offerings
- Strategic oversight and academic governance of the program
- Quality assurance, including annual review processes and benchmarking
- Curriculum and pedagogical developments, including internationalisation, indigenisation of the curriculum, WIL, and the future of work
- Delivery and staffing, including the study experience and the student experience
- Outcomes, including student satisfaction, perspectives of graduates and employers, and graduate destinations
- Sustainability and longevity of the program, including student load and demand

[As approved by the University Senior Executive Team on 12 December 2022]
